TILE SPECIALISTS

Cornett Roofing Systems are the Midwest's clay tile roofing specialists, with decades of experience in tile roof installation, restoration, and repair. An authorized installer of Ludowici Roof Tile products, Cornett has extensive experience in restoring historical buildings and residential tile roofs. Servicing a tile roof calls for special expertise, tools, and experience, which can only be found by using a qualified tile roofing specialist, like Cornett Roofing.

NATURAL CLAY TILE ROOFING

CLASSIC ARCHITECTURE, PROVEN DURABILITY

MAINTENANCE & REPAIR

While clay tile roofing is one of the most durable roofing systems ever invented, they do require periodic maintenance. Loose, cracked, and missing clay tiles are common, due to age, storms, and animals.

Our technicians know how to carefully inspect these tile systems, often using a commercial drone for "touch less" inspections. Trust your roof repair and service needs to the clay tile specialists at Cornett Roofing!

RECLAIMED & SALVAGED TILE

Cornett Roofing has one of the largest collections of salvaged and reclaimed clay tile in the Midwest. Tile roofing is so durable, it often outlasts the structure it was installed upon!

If you are looking to match an existing tile roof, or are seeking a cheaper alternative to new tile roofing, Cornett can assist with high-quality reclaimed tile at competitive prices. Our clay tile inventory includes many colors and sizes, perfect for virtually any project.

TILE ROOFING INDUSTRY ALLIANCE

Cornett Roofing is a member of the Tile Roofing Industry Alliance, a professional organization dedicated to developing tile roofing best practices and training programs. Our commitment to continuous improvement and higher standards of quality never stops!

COMMON CLAY TILE STYLES

FLAT CLAY TILE ROOFING

With uneven lengths, a rough textured surface, and chipped butts, flat clay tile roofing reflects the feel and warmth of old Europe masonry and style.

SPANISH TILE ROOFING

Prized for its simple, clean, one-piece barrel design which creates a pattern of consistent ripples across the roof. Spanish tile is often synonymous with clay roofing tile, a very common roof type in various parts of the country.

FRENCH TILE ROOFING

Introduced in the 1890's, the French tile roofing system has deep locks on all 4 sides, plus 2 prominent flutes for aesthetics and fast drainage. A highly refined and beautiful, clay tile roofing style.
