

METAL SHAKE SERIES

MODERN, ELEGANT METAL ROOFING

Our most popular metal style, the Metal Shake Series is as beautiful, as it is durable. Aesthetically, the profile has the look of classic wood shake, but is comprised of 24-gauge, North American steel.

The Metal Shake Series is Class 4 rated for hail and wind resistance (the highest rating available) and comes in six standard colors, with an optional patented powder coating option.

Due to the profile and custom HD paint highlighting, the Metal Shake Series is particularly stunning on mid-to-steep slope roofs, where the dimensional nature of the panels truly stands out.

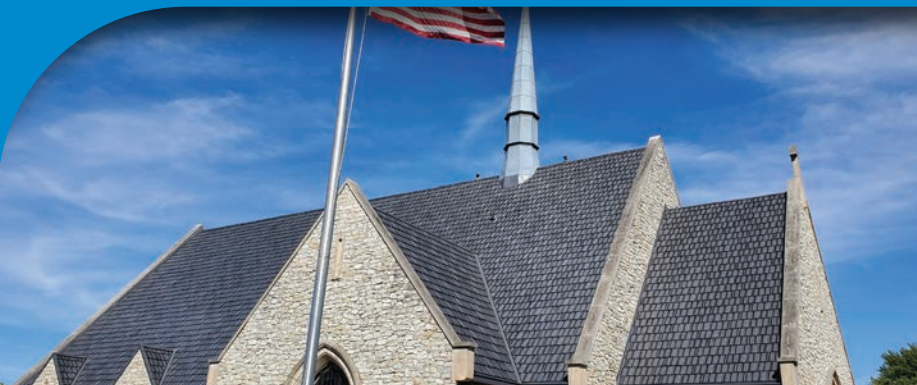

MODERN

& ELEGANT ROOFING

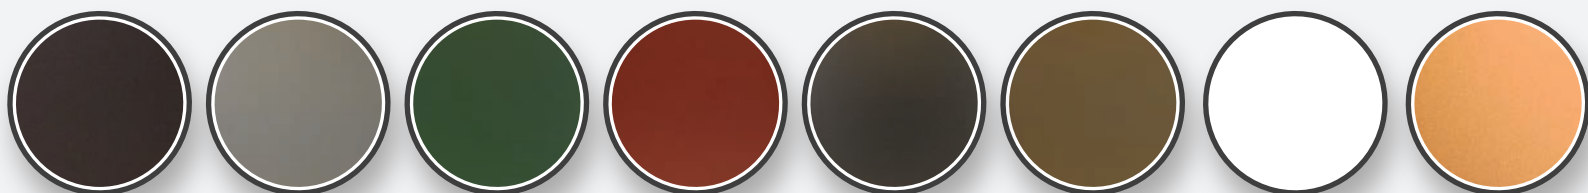

The Metal Shake Panel Series offers a modern take on a classic roofing style, the wood shake roof. Constructed of high-quality, durable steel, the Shake Panel Series offers a unique, beautiful look, with unmatched durability and performance.

The Metal Shake Series provides the classic wood shake roof profile, without the threat of mold growth, termite damage, and wood rot. With a striking, dimensional look and multiple finish options, the Metal Shake Series is the perfect way to both protect and beautify your home or business!
