

METAL SHINGLE SERIES

TRADITIONAL STYLE, HIGH-TECH PERFORMANCE

The Metal Shingle Series provides the look of a traditional asphalt shingle, but offers more than 3x the service life! Made from the same premium raw steel as our other metal roofing systems, the Metal Shingle Series comes with a 40 or 50-year warranty, depending on the selected finish option.

Due to the low roof profile and custom HD paint highlighting, the Metal Shingle Series is a great selection for both mid and steep slope roofing, where the dimensional nature of the panels truly stand out.

CONTEMPORARY & EXCEPTIONALLY DURABLE

The Metal Shingle Series offers the look of asphalt shingles, while delivering superior long-term performance. The Metal Shingle Series provides unmatched resistance to weather damage, energy savings, and unique beauty to your home or business.

The Metal Shingle Series is a superior roofing alternative to traditional asphalt shingles, in performance, appearance, and sustainability. The Metal Shingle Series is highly hail/wind damage resistant, won't support algae growth and staining, is fireproof, and is 100% recyclable, unlike asphalt shingles.
