

METAL TILE SERIES

MODERN MATERIALS, CLASSIC SYTLE

The Metal Tile Series provides the elegant look of the classic, Spanish clay tile profile, but are manufactured using premium 24-gauge steel. Lighter and much less expensive than clay tile roofing, our Metal Tile Series panels are an excellent replacement for a failing tile, slate, or asphalt shingle roof.

The Metal Tile Series comes standard with a premium paint finish, ensuring your roof won't color fade or delaminate. For added protection, we offer a patented Powder Coating (PC) finish option, that extends our standard warranty from 40 to 50 years. Finally, you can select from eight standard colors, including our exclusive HD color treatment that provides a dimensional look.

HISTORICAL

LOOK IN MODERN METAL

The Metal Tile Panel Series provides the aesthetic value of natural clay tile, at a fraction of the weight and cost. The Metal Tile Panel series offers a unique and beautiful roofing option, while providing similar long-term roofing performance as traditional clay tile.

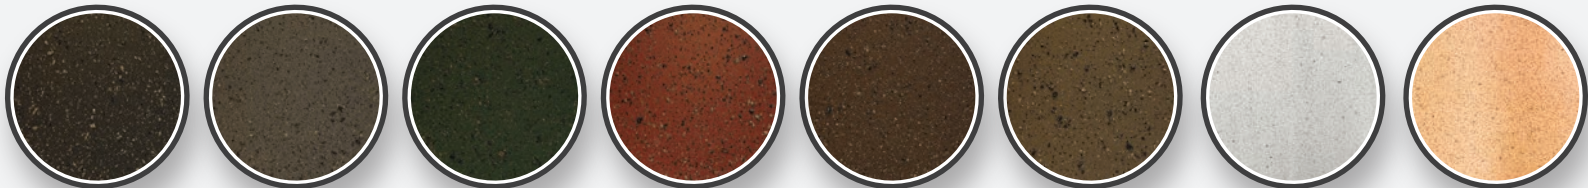

The Metal Tile Series is offered in three unique finish styles and eight standard colors (custom colors are available). Each finish option (smooth, powder coated, and powder coated HD) is made of the same high-quality, 24-gauge steel at our Midwest manufacturing facility, custom designed for your home!
